

## MNWIFT Member Spotlight November 2008

### Christopher Russo

**I am from** New York City

**I got my start in the biz** as a makeupartist and hair color technician for L'Oreal of Paris in New York City.

**I am currently working as**

**A** freelance hi def airbrushed makeup designer/artist.

**The project I am most excited about is** the next one.

**In ten years I see myself** as enthused about my work as I am presently.

**The best part about being a member of MN WIFT** Is networking with those I have yet to meet.

**I think we can strengthen the community of women in production by** doing the best work that is possible.

**Most people don't know that I can,** "make'em look good or make 'em look bad... your call!"

**If I could be anywhere in the world right now it would be** right where I am now, but busier.

**Three people I would love to meet are** those I have already met and those I have yet to meet.
