~~~~~

**I am from** Marshall, Minnesota.

**I got my start in the biz...** Katie Lynch, now at Preston Kelly, hired me as her intern in 2003. I've been there ever since.

**I am currently working as an** Editor/Motion Graphics Artist.

**The project I am most excited about is** a documentary I've been working on for the past four years.

**In ten years I see myself** working at a post-house on high-end broadcast projects.

**The best part about being a member of MN WIFT is** talking with the ladies in my field. We are definitely outnumbered.

**I think we can strengthen the community of women in production** sticking together and continuing to kick ass at our jobs.

**Most people don't know that I** went to college for 3D Animation but now work as an editor.

**If I could be anywhere in the world right now it would be** lying on a beach in Jamaica.

**Three people I would love to meet are** Barack Obama, Michel Gondry and Johnny Depp.
